PRODUCER™ V DISC PUBLISHING SYSTEM

Robust and Reliable, Engineered for Performance

The next generation Producer V is the most powerful disc publishing system from Rimage, engineered for 24x7 performance. With industrial grade robotics, direct-to-disc printing and professional recording technologies, Producer V meets the world's most challenging disc publishing demands for CD, DVD and Blu-ray Discs™. Advanced features such as SSD startup and HDD cache combine with powerful enhancements including filtered positive airflow and front removable hard drives to bring you unrivaled performance and quality.

Powerful printing

Producer V systems have the world's best full-color and monochrome thermal disc printers, providing top of the line printing and industrial-grade production in one scalable package.

Quick turnaround

Designed for 24/7, high-volume and unattended production, Producer V systems publish hundreds of customizable discs per day, so you can deliver customer-tailored discs faster.

Superior performance

A four-bin carousel and 100-disc external output bin are standard with the Producer V system, enabling four media types to be available concurrently. The reliable Rimage robotics are designed to output discs continuously for years, and filtered positive airflow improves system operation and efficiency.
